Experience

Backend Developer Intern

July 2024 – August 2024

LEENTech Network Solutions

General Trias, Cavite

- Developed an AI Chatbot System with multiple specialties within a 3-week rapid development, catered to help and assist different kinds of users.
- Presented the project weekly to the CEO and, on one occasion, to a US-based contact of the CEO to demonstrate progress, gather feedback and ensure alignment with the company's vision.
- Created in Next.js framework with Vercel database services and GPT-4o and DALL-E API integration.

Freelance Web Developer (Commissioned)

April 2021 – May 2021

Confidential Client

Imus City, Cavite

- Developed an online grading system with full frontend-backend CRUD functionality using HTML, CSS, JavaScript, Bootstrap, PHP and MySQL, enabling the junior high school faculty to manage student records easily.
- Authored user documentation and delivered the project on time; client reported high satisfaction.

Education

Bachelor of Science in Computer Science, Cum Laude

Lyceum of the Philippines University Cavite | General Trias, Cavite
